Affirm Request

I recognize that the financial assistance I am requesting is provided through contributions from community donors, partner organizations, and Girl Scout product sales.

I understand that to ensure financial assistance, I should encourage our troop/group to participate in GSCSA sponsored product sales. These sales allow girls to learn budgeting and goal setting skills while allowing them the opportunity to pay for their next year's dues from sale proceeds.

Once your daughter is placed in an established troop, you will need to verify with the troop leader the items your daughter will need to purchase from the shop. If your daughter will need assistance with the items the troop is requiring you to purchase, you may request a shop financial assistance form to complete and submit for approval. This form may also be found online at girlscoutcsa.org. Only the items listed in a Great Start Kit are available for financial assistance.
